XLSX is a file extension used for Microsoft Office Excel spreadsheet files. It contains a file format that supports extended character formats, such as pictures and charts, as well as being extendable and expandable. XLSX was introduced in Excel 2010 and was the default file extension for spreadsheets created in Excel 2010, Excel 2007, Excel 2003 and earlier versions. With the introduction of Excel 2010, the file extension was changed to XLSX and XLSM. The XLSX format is the default format of Excel spreadsheets created in Excel 2013 and later. The XLSM format is used for Microsoft Excel 2013 versions, and earlier.
