Epic Mickey Disney Epic Mickey is an action-adventure video game developed by Junction Point Studios and published by Walt Disney Studios Home Entertainment. The game was released in November 2011 for Microsoft Windows, PlayStation 3, and Xbox 360. The title has no connection to the Disney comic book series of the same name, though some of the artwork was directly sourced from it. Epic Mickey is a platforming game in which the player assumes the role of the player's favorite Disney character; the player can control Mickey Mouse and other characters. The game's central mechanic is the use of multiple colors. Epic Mickey is the first video game to use the technology, Fluid Cell, to give objects their character color by way of manipulating the pixel-like shape of individual cells on the screen's background, and also the first video game to incorporate such technology in a way that is not noticeable to the player. Epic Mickey gives the player the ability to manipulate the color of each object in the game world, including enemies, the environment, and the characters the player can interact with. The color of the environment and the characters can be modified to represent a variety of qualities, such as "evil" and "good". Cirque du Soleil: Worlds Away Cirque du Soleil: Worlds Away is a video game developed by Distant Worlds Entertainment and was published by Focus Home Interactive in 2010 in Europe and by Electronic Arts in North America. The game is set in the fictional Cirque du Soleil universe. In the game, players assume the role of a Cirque du Soleil acrobatic performer in the main character's quest to save her father. Gameplay revolves around performing traditional acrobatic acts with difficulty and safety ratings. The game includes four "Cirque du Soleil" minigames. The minigames include a character customization mini-game, a dance-based mini-game, a baton twirling mini-game, and a performance-based mini-game. The main game is played by one player, and the purpose of the other three mini-games is to create a gameplay experience different from the main game. Cirque du Soleil: Worlds Away was released for Microsoft Windows and the PlayStation 3. It was the first game based on the Cirque du Soleil series. Pink Panther Pink Panther is a platform video game developed by N-Fusion and published by Big Top Games in 2000. The game
