To facilitate this, AutoCAD is available on a number of platforms: AutoCAD LT (Local Tools) - Allows you to edit/create/animate drawings from the terminal in the same way you can edit/create/animate drawings on Windows or Mac. This is the desktop version and it does not provide any remote collaboration features. AutoCAD Architecture - This is AutoCAD's version for architectural design, and as such is the most used version. AutoCAD Electrical - This is for electrical design. AutoCAD Mechanical - This is for mechanical design. AutoCAD Civil 3D - This is the version for civil engineering. AutoCAD Structural - This is the version for structural engineering. AutoCAD Land Desktop - A free, cloud-based drawing package, to share and collaborate on projects. AutoCAD 360 - An application that allows users to communicate and share their work on Windows, Android, and iOS devices. AutoCAD LT (Desktop) - An older version for desktop use, that allows creating and editing drawings from a menu. This version is now no longer supported.
