COMPLETE WALKTHROUGH OF THE GAME. - Game Start Menu: A lot of titles promise a huge game world; however, they fail to deliver. Being able to explore a vast world by foot rather than traversing it using vehicles or mounts is an amazing concept in an action RPG. The Elden Ring is such a game! The game world is huge, and although it is primarily accessible on foot, it also allows you to ride a dragon as a mount. It also allows you to explore various locations by boat. Traversing the game world is a lot of fun, as you easily see all of the locations by foot. The game world is designed to feel vast and to not end and restart every time you run into a wall, so I recommend that the player actively explores the environments. The placement of the locations is also neat. Around every corner, there is an area that can be explored, and the areas are arranged to not require too much effort in opening up the wide and grand views. The only things to be wary of are the locations that have low light or many monsters. New dungeons, new areas, and new companions For this particular point in the game, Tarnished is about to begin his journey as an adventurer, and new regions and dungeons are being added to the game. It's easy to see how areas that were once inaccessible are now showing up in the game's world map. If you follow the game world map to a location that has not been visited previously, you are given a new area to explore. Each new area is filled with new dungeons, a new town, new characters, and a new story. Along with all of these new locations, there are new items to find. You'll find unique weapons, armor, and magic items, all of which have descriptions that explain what the item can do. New weapons New armor New weapons New armor New weapons The weapons in the game are meant to feel unique, though that is up to the player to decide. The weapons consist of axes, weapons, and swords. The swords each have two types; a blade and a pair
