EPUB EBook On the other side of me is the nameless medical student who will, someday, listen to my heart and shake his head, but on the other side of him is the man who forked over the rather large lump sum of money that separates him from a patient whose life is in the palms of his hands. It's more than money, though. It's her freedom to choose. I'm sure the student will ask her. I'm sure he will ask. For some, a lump sum is the only way to obtain health care in Canada. But while it sounds like he's now settled into the idea of a lump sum, I'm sure he won't be happy. Sure, that's probably a small price to pay for a free, universal health care system, but I know it's an emotional issue with the students that he's kept foremost in his mind. And from the tone of his voice, I can hear it in his footsteps as he leaves the room. I know, I know.. most of my patients could afford to pay for their own care. I recognize that. They can afford to pay for their care. And I can recognize that. I was fortunate.

Extremely difficult This is an extremely difficult puzzle. It will take a really long time to make progress on the puzzle. You will have to review many of the hints in this hint book and use the pictures and descriptions to figure out where you are getting stuck. Try to attack the puzzle from one direction at a time. For example, it may be easier to start with white tiles,

then work on a black tile, then go to a white tile and finally a black tile. As you attack the puzzle from one direction, try to consider the others. For example, if you were working on white tiles and you have a black tile in front of you that you think will be very helpful, then consider the color of the tile you were just working on.

Which tiles will be helpful to work on next? What is one more white tile going to help you accomplish? How about the next tile to the left, or the leftmost black tile?

Can you see that each of these tiles is really helpful? This is a good strategy to think about when you get into a tough situation. You can use each of the tiles that you know about to help you work your way forward. This is an extremely difficult puzzle. It will take a really long time to make progress on the puzzle.
