Q: html inputs not accepting variables This is the code for creating a text box and using the variables from user to create in the name and id property. 1) What is wrong in the code?? I am not able to create the textbox with name and id props which I have assigned a string value in the code, is that compulsory to use. 2) Is there any other option to create a html text box? Dim str As String str = "Hello World" str = str & " " str = str & "your name is: " str = str & TextBoxName.Text str = str & " and your email is: " str = str & TextBoxEmail.Text str = str & "Please click
