Manager: 16:13 Before you

do anything, please read the

following: 1. This is a

Freeware only release, it's not

a product. 2. Modification of

any EXE or MSI packages can

render the original package

inoperative, or cause

unwanted and often harmful side-effects. Do not do anything that might possibly harm you. 3. You do not have to have any money to use any of the sites to download free Freeware. That said, you do not have to pay for the Free Software if you so choose. If you are planning to try it, work it out properly, if

you don't like it then just
plain uninstall it. 4. In fact, it's
your plain and
understandable responsibility
to test all Free Software
packages, including this one
before actually using it. If you
do not agree with the above
then you are welcome to
cancel your subscription after
you have been charged.
