You are a nameless hero who has been abandoned by the others on a dark and dangerous world, and you have no memory from your past. You try to find your way home, but as the story unfolds, you may find new friends, new enemies, and new opportunities. If you find this game cute, I would be glad if you could download and try my game! Thanks, Alice For mods, suggestions, and criticisms, please feel free to leave me a comment or message. I will try my best to help you out whenever you need help. Bugs or problems that you would want to report? Please make sure you don't. Just email me and I will try to fix it right away. For social media, I would leave an @ symbol and address there. Thanks. YouTube: Twitter: Discord: Google+: Game Settings: Made in Unity 2018 Version: 5.4.0f3 System: Windows A: I started seeing fewer and fewer feature requests of this kind and decided to close this question. As an interesting sidenote, I still maintain this repository of feature requests, where you can find the JSON file that people posted to request features. An example of a feature request is below. Hey guys! Welcome to the most epic tour of all time, I'm honored to be your host John Vereb (ParagonX) and alongside me is John "eternalod" Gordon from Carbot & Otis with my brother Chad Johnson as well as our friend "BR1AD" (or "Tra-Dub" as he pronounces it). The two of us have been friends for almost two years now, and first met at a panel at Midwest Furfest in 2015. We used to play weekly duel and are now two of the best duelers in the world, in my opinion. The event will take place July 14, 2016 in Kansas City, KS at the Scottish Rite Temple on Johnson Street (Eliza Park near the station).
