SUPERAntiSpyware is recommended to be used together with a parental control app. Download freeware virus and spyware scanner SUPERAntiSpyware SuperAntiSpyware is a comprehensive program with many utilities. It is suggested to be used together with a parental control app. SUPERAntiSpyware Full version is a versatile anti-malware program for Win 32/64 bit systems with a GUI that is designed to make it easier for users to update and manage multiple anti-malware solutions at once. It does more than just clean spyware and malware and will protect your private files, cookies and data while scanning files, running processes and a system registry. SUPERAntiSpyware has been tested against spyware, adware, Trojans and other malware, and was found to be very effective. It will test and uninstall over 5000 Adware, Wana-Adware and Spyware-Downloader, over 300 Browser Hijackers, and over 50 different Potentially Unwanted Programs (PUPs). It can be used without having to make any system-wide changes to your computer. It is very easy to use and can also be used to install some important programs including popular browsers. SUPERAntiSpyware has no scheduled scans, but instead uses a "smart scan" system. If it detects a threat, it sends an automatic report to its remote servers to allow us to update and improve SUPERAntiSpyware to rid your computer of the detected threat(s). The list of the detected threats can be downloaded from our "Details" page of the product. SUPERAntiSpyware can also optionally delete potentially infected files or suspicious program files. You will be notified if possible deleted files and program files are recovered and restored on your system. Lite SUPERAntiSpyware Software Full License key: There is FREE Lite SUPERAntiSpyware which has the same features as the full version of SUPERAntiSpyware. It doesn't have advanced user interface. The utility offers real-time protection, a registry cleaner, an adware and spyware remover, a tool for fixing file system issues, an anti-malware checker, an antispam filter, an optimizer, an antivirus engine, an antimalware engine, a free system registry cleaner, a utility for customizing your home page and much more. All the free version comes with 3 months of full system protection against spyware, adware, browser hijackers and other infections. There is no such thing as the free version of SUPERAntiSpyware. The free edition is available as a full-featured paid version named as SUPERAntiSpyware Pro. Features: The Free version includes the following free features: Critical Point Scan - in case that all other scanning methods fail, it is possible to use this scanner. The default scanning type is quick, yet it is capable of detecting the threats not detected by the others. It also removes spyware, adware and other security threats such as keyloggers, malicious ActiveX controls, browser hijackers, cookies, registry keys, browser extensions, browser helper objects, browser helper objects, toolbars, and others. AntiSpyware - it is possible to turn on this option for the detection of spyware, adware and other security threats. You may need to select a certain action to make this happen, for example, to detect and remove browser hijackers, hijackers should be selected as Spyware and search for Security Threats. Real-Time Protection - this is a system scanner and malware remover that can help you to remove malware, prevent further infections, maintain the security of your system and protect your privacy. It also offers real-time protection against spyware, adware, browser hijackers and other security threats such as keyloggers, malicious ActiveX controls, browser hijackers, cookies, registry keys, browser extensions, browser helper objects, browser helper

objects, toolbars, and others. Registry Defragmenter - this tool can defragment your registry and make repairs automatically. You can choose to do so all by itself or select another option to defragment specific parts of the registry tree or to do so manually. Adware Fighter - the Adware Fighter
