You've been transported into another world where the creatures are all living in their castles. Other creatures have exiled you to this world to keep you safely away from the real world. You are given a bow and arrow, but you can only fire it when enemies are nearby. You are also given various other tools and devices. As you explore, you will unlock more of the world. There is a story to each stage, but you do not have to listen to it if you don't want to. However, as you unlock more and more parts of the world, the story will grow more complex. This game is a pseudo-8-bit game. Everything in this game is 8-bit graphics and sound, so it plays like a "real" 8-bit game. It is NOT 8-bit styled graphics, but it will have 8-bit styled graphics in certain parts of the game. Features: Console-grade graphics and music Dynamic gameplay -- enemies require different strategies to beat Minigames like Bejeweled and Mahjongg Customisable controls and difficulty Support for Windows, Mac and Linux About The Artist: This is my first game and my first professional art project, and I am very proud of it! I will use this game as a learning and growth experience to showcase my skills in 3D programming, sound design, animation, and more. Todo list: Add more levels to the game Add more creatures Add more enemies Add more weapons Add more equipment Add more puzzles and quests Add more enemies and equipment Add more challenges and achievements Add more characters and quests to the story Add more difficulty modes Add more items and equipment Add more puzzles and unique items Add more minigames Add more bosses Add more enemies Add more weapons Add more quests and characters Add more camera controls Add more enemies Add more puzzles Add more items Add more enemies and items Add more things onscreen

Fowl Magic is a platformer where you take on the role of a helpless chicken caught in a wizard's tower that is slowly burning, challenging you to solve puzzles with a variety of magical potions. Play through an extensive story mode and battle a slew of vicious monsters while you traverse a castle of innumerable rooms and floors, all while you survive! Features: - Simple to play, challenging to master! - Dynamically generate level layouts! - Explore a castle of endless rooms! - Over 50 different enemies! - A variety of magical potions for rescue! - Beating your high score... - and seeing your name on the leaderboards! Created by PenguinTantrum, Fowl Magic is a highly-acclaimed NES platforming adventure with a dark, cartoonish art style and humor to spare! Scratches the itch you've been needing to scratch since coming home from your night shift, and just might end up changing the way you play games forever. You play as a hapless chicken trapped inside a wizard's tower, quickly learning it is not an ordinary castle, but one whose inhabitants could eat you for dinner! To survive, you must strategically fill your inventory with potions to drink, leaving you powerful enough to escape this predicament. PLAY IS TO SURVIVE Fowl Magic gets down to business with a challenge for the player: Survive as long as possible by solving puzzles and defeating enemies, while keeping your health up to avoid nasty deaths. The basic goal is to make it out of the tower's first floor, but as you progress, new levels and enemies will be added, all with their own unique challenge to overcome. A TRUE PLATFORMER Fowl Magic's unique platforming action hinges on your ability to balance the need to jump, glide, and dash, along with the need to dive, dodge, and drop. Don't miss while you can, because you never know when the next drop will come! CHARACTERS Your character is a chicken who's literally been caught in a bad situation. You'll need to drink potions to increase your strength, heal your health, and gain or drop your own fire; using the right potions at the right time is a vital part of surviving! ENEMIES Stay on your toes! There's more than just monsters out there. A clever mix of enemies emerges from both gameplay and content, and they
