They are then joined by a pair of Colonial Marines - Corporal Rex "Chimera" Bartholomew and Sergeant John "Hunter" Gault - sent to investigate the remains of the crew and the launch pad. An alien artifact from the race is the cause for all the chaos, and now the crew must find a way to fight back against the ruthless Covenant. Exploring the uncharted environments, they encounter the mysterious Nomad, an exiled warrior of the Covenant who claims to have been the first to discover the Covenant. The Marines discover that Hunter is the half-alien offspring of the leaders of the Covenant and the humans. Plot: Aliens in human form invade a base and they want to make a deal with mankind. These entities help the humans control the energies of creation and annihilation in the universe. They are trying to prevent the rise of the god the humans worship while their own god is set to descend. The war of these two gods ends in the same manner as it began - mankind destroys the aliens.
