A rogue's paradise by day, a baroque nightmare by night - Baroque, the City of Dreadful Night, was built on the excesses and follies of a decadent 19th-century aristocracy, whose depraved lifestyles are only eclipsed by their infamous Grand Guignol Theater. When you're not under a mind-altering drug in the theater, you're abusing alcohol, sleeping around, or getting into fights in the streets. The grand houses are choked with threadbare cast-offs, and the outcasts of Baroque hang around the pitiful performance-art corners. But above it all, forever above it all, the opulently-decorated Castle of the Count of Hellris. Nobody dares live in Baroque. Everyone knows it is a city of secrets and lies. To live in this city means to pay. And your only way to make money is to sell to the Count of Hellris.

Your first job is to keep the count alive. If you do, you'll be rewarded with a better apartment and a stint in his internment facility. You have about a week to plan your escape, unless you're already trapped by a debt to the count. The Count's mansion is just the beginning. As you escape your mark and work your way through the cast of characters you meet in Baroque, your investigations begin to unravel a mystery that's been kept buried for years, since the 18th century. You'll learn more about the secrets of Baroque, the nature of the Grand Guignol Theater, and other things far stranger than even the Count of Hellris could possibly have imagined. The Mysteries of Baroque is an interactive Gothic horror text adventure, where your choices control the plot. It's entirely text-based, with no graphics or sound effects. And it's fueled by the vast, unstoppable power of your imagination. You can choose to pursue justice or vengeance, love or secrets, as you save or destroy the world. Key Features: The Mysteries of Baroque is an interactive Gothic horror novel. Your choices control the story, and the story is up to you. You live a secret life, because it's safer. But the future of Baroque depends on you breaking your cover. The cast of characters in Baroque is bizarre - they're simultaneously familiar, and utterly outlandish. Imagine a world filled with vampires, were c9d1549cdd

"The most wonderful thing you can do for another person is to let them see themselves as they really are." - Holocaust survivor Rated 3.8 / 5 stars2011-12-02 16:22:53 Rated 4.5 / 5 stars2011-08-01 19:59:57 Good voice acting The voice acting is good, though a bit inconsistent, e.g. in certain scenes with gruff manly voices for the main characters, in the "plotting" of the 3rd intro's boss battle, etc. The concept is, as almost all random encounter games, interesting, which includes all the voice acting, without which it would have been reduced to a rather dull and repetitive process of hunting for NPCs. However, it could be much more in depth, adding/changing more plot twists, a new deeper character (maybe even more than just a few), etc. One thing: if possible, please try to give some indication of what kind of sound is used for certain objects, like a house, an airship, a big machine, etc. Rated 4.5 / 5 stars2010-12-13 23:57:51 Hot Damn The setting is quite well developed and the story isn't too cliché. The problems lie in the lame characters and the pathetic plot. What? Rants about getting attacked by the government? WTF is up with that. Anyway, the voices are decent and the music is very good. Try to get the boss battle theme anywhere else as it's way too similar to DMC's and Capcom's intro theme.WASHINGTON (Reuters) - The U.S. government warned on Wednesday that financial intermediaries, including banks,

Could it be something at school? At home? It could be a friend or family member's house. Does this trigger change? Is the temperature warmer? Clouds becoming more saturated? Could the special birthday party be the cause or the illness? We cannot predict the triggers that will set off this next attack. Our families teach us that when we have pain of any kind we rest at home. It all depends on the child. There are schools and rules for certain parts of the home that are only taught based on being tested. If there is a new symptom, the school will send out a note to the home to call the nurse or doctor immediately. If we have attacks at school could they be happening because we do not have our inhalers in our backpack or in our lunch sack? We just do not know! We may want someone to help because we are scared, we may feel alone, feel powerless, and rarely have anyone understand what we are going through. Asthma attacks can be frightening because we may be in pain, may feel airless, pass out, need to be taken to the emergency room, have a collapse, and may need oral steroid medication. The answer to all of this may seem obvious, but who would
