Repentant is a full-length point-and-click-adventure game inspired by 8-bit titles like Manic Miner or Jet Set Willy. A mysterious crime scene, reminiscences of Oliver's past, and a small twist of fate, all mixed together in a story of a man who is trying to overcome his faults by helping someone else.Features - Explore atmospheric and hand-painted locations, filled with intriguing puzzle - Hear an amazing soundtrack by Abstracode - Enjoy full English voice acting - Overcome puzzles with elements of logic, like "Hey, stop!" - Full english subtitles in the title screen and game menu About this game: To begin with, if you're like me, you're gonna want a slow, relaxing drink after you buy Repentant. This game is filled to the brim with beautiful things and an incredibly emotional story that takes you on a journey from dark to light. I'm usually not the type to get teary eyed, but this game will definitely put a damper on your day if you like telling stories that you cry over. One of the things that I particularly liked was the charm that each scene had. I didn't really know what to expect when I first started playing, but after each scene, I was glued to the screen watching what happened next. There were very few, if any, bugs, so I felt like the game was solid. I found myself forgetting how to spell some words when referring to some of the words in English, but I really couldn't understand it anyway because the audio was just too much for the words to grasp. Although I like the storyline, I will warn you that this game is not for everyone. This story deals with a lot of heavy topics, and in my opinion it's something that should be respected and handled with care. It's a tad confusing, even at the beginning, especially if you haven't played any point-and-click games before. Just be warned. The sound effects were well done as well. I found that they were pretty clear, but if you were even slightly deaf, then you're in for some fun. I don't have any complaints regarding the voices. The puzzles are some of the most logical puzzles that I have seen in a long time. They are also very simple and not extremely difficult

There is also a sense of kinship with the *real* Ada Lovelace. If anyone has a list of justifications for naming something 'feminine,' it's Ada. She wrote about the experience of emotion and visceral physiological responses, and her adumbration foreshadows all of digital culture's vicissitudes over the past century." Lingua Fleur is an interactive graphic novel set in a fictional world with eastern Asian culture and new design. In this second title of the legendary Lingua series, you will wander and you'll have to cross the city of Taka...Final rites to be held for Feb 12 Bhopal gas tragedy victim Bhopal: Around 1,500 people from across the country, including victims of the worst industrial disaster in India, would gather for the final rites of 17-year-old Usha Soneja, whose body was recovered from the site of the world's worst industrial accident on Saturday. She was among dozens of people who lost their lives in the Union Carbide disaster in 1984 in the city, which left at least 2,800 people dead. Around 1,500 people would attend the last rites of Usha Soneja. (Facebook/Usha Soneja Final Touches) More than 30,000 people were affected by the disaster and 19,000 of them were from Bhopal alone. Singer-lyricist K. L. Bhagwan would be the chief mourner, and would be accompanied by many popular Bollywood actors, including Govinda, Raveena Tandon, Kajol, Juhi Chawla, Jackie Shroff, Farhan Akhtar, Shradha Kapoor, Tusshar Kapoor and Preity Zinta. Her body had been kept in a freezer in the hospital since August 7 and the Central Bureau of Investigation (CBI) had been examining her remains. The CBI had arrested former Dow Chemicals chief executive Warren Anderson and eight other former managers on June 21 this year for the culpable homicide not amounting to murder. A report of the investigation revealed that a dump truck was involved in the death of over 1,000 people on December 2, 1984, at the factory premises, the site of the world's worst industrial accident. The long-delayed report of the CBI probe was sent to the Centre on August 4, prompting the government to set up the Usha Soneja-Mukesh Ambani Jan Arogya Yojna (USHAY) on August 5, to provide health care to people affected by the disaster. On Saturday, the body was recovered from the factory premises. She was found on a road near the site of the toxic waste dump.Ont
