Key Features:Q: Iterating over multiple JSON objects I have an HTTP request which returns JSON data that looks like this: { "data":[{"oid": "1021" "1022" }, {"oid": "1111" "1112" }, {"oid": "1011" "1012" }, {"oid": "1011" "1012" }]} What I'm trying to do is parse this into a dict with two values: [{ 'oid': '1011' }, { 'oid': '1012' }] Is there a way to do this in Python, either using the json module or another library? My app is using Flask, which could be used to parse the JSON. A: You can first turn that JSON into a simple nested list and then use a simple for loop to get what you want: import json str = """{ "data":[{"oid": "1021" "1022" }, {"oid": "1111" "1112" }, {"oid": "1011" "1012" }, {"oid": "1011" "1012" }], {"oid": "1011" "1012" }}, {"oid": "1011" "1012" }]}"""

Take control of the best players in the world and lead your team to glory in FIFA! FIFA is the world's best soccer game; FIFA is also one of the most popular games in the world, with more than 200 million players. Fifa 22 Free Download has been reengineered to help you play the game in a whole new way. From the balls we've refined to the animations of the players, we've got every component ready for your next FIFA game. With the new **FIFA Control**, players can now play both shooting and dribbling like never before. FIFA's button mapping has changed, and we've also introduced new dribbling controls. It's clear that we've upped our goal-scoring abilities, but we didn't want to lose our ability to play the game at pace, so we've introduced the new Pace Mode. One of the best things about FIFA is the unpredictable nature of real-world matches, so we've built in a pass completion meter to keep you on your toes. We've also made every area of the game easier to use, so you can play FIFA like never before. An Evolution of Frostbite® FIFA is the benchmark of sports games. For years, it has been possible to create truly lifelike soccer matches using a combination of in-house power like Frostbite® and out-of-house creativity like the amazing ideas of our players. With Fifa 22 Torrent Download, we've been able to explore new ways of playing with Frostbite, which has helped us deliver a more dynamic and reactive game world. Taking on a new platform, we've needed to adapt our rendering techniques to match the demands of our new engine. The engine itself has been built to support new rendering features like greater detail and richer lighting, as well as impressive atmospheric effects that blur the line between real and virtual. Fifa 22 Crack Keygen will allow players to put more into the virtual stadium, and we're excited to share the immersive experience of real-life crowds at the 2014 FIFA World Cup. Our new features will help you experience these crowds like never before: **Vision Control**: Get a better view of every player on the pitch. Our new V.I.L.A. (Virtual Intelligence Locating and Awareness) system will bring the stands closer to you and make every
