Osmosome: new targets in the treatment of sickle cell anemia. Sickle cell anemia (SCA) is a major health issue in African populations. While recent progress have allowed for a better understanding of the molecular pathogenesis of the disease, which include the role of cytotoxic free radicals and the intracellular pH, no effective treatment has been identified to date. Furthermore, available methods for the delivery of drugs to the cells are limited. Vesicles, naturally occurring and artificially created, are capable of carrying molecules inside or outside their membrane depending upon the nature of their matrix and composition. An interesting group of nanoparticles, "osmotically active vesicles" (osmosomes), are sensitive to the microenvironment of their surroundings and their volume can change from large to small vesicles. Therefore, these vesicles are capable of transporting molecules inside or outside their membranes, which can be useful for developing drug delivery systems. In addition, SCA patients express abnormal cell-surface proteins that can be target for drug delivery. Utilization of osmotic vesicles will allow to modulate the pathophysiological properties of abnormal surface proteins. The aim of this review is to discuss the scientific basis of the osmotic vesicles and highlight the potential of these vesicles to deliver drug to SCA cells to alter the pathophysiology of these cells.

Astak IP-700 Review: Astak
Ip700 Software Download. I

got the astak at a price
which was incredibly more
than other market price. I

like its sleek looks and
features. Its a small
camera which can be
carried easily. I am using it
as a mini wifi camera. This
camera is easy to setup
and manage remotely.

Astak software and the Astak network camera are synced very well. Along with this, astak security camera has excellent image quality. I

recommend this wifi camera to be used for monitoring pets, outdoor motion, home video, activity, security and surveillance monitoring. If you have any problems installing it, just contact Astak Customer Support and they can assist you

very well. This is a new and improved version of the Astak Network Camera with many additional features.
