After reinventing the interactive fairy tale with Kings Quest, legendary  
designer Roberta Williams turned her attention to a new type of game  
with Sierras 1989 mystery adventure The Colonels Bequest. The story  
centers around 1920s-era Louisiana and young journalism student  
Laura Bow, who is invited by her flapper friend Lillian to visit her  
familys plantation island but all is not well when the Colonels will is  
read, and what starts as simple family bickering soon leads to  
murder. Of course, Lillians family is a cast of scoundrels and  
reprobates who cheat, lie, and steal, and thankfully reveal as much in  
conversations that can be spied on by the intrepid Laura. Like a  
classic Agatha Christie whodunit, one murder leads to another and  
discovering secrets becomes secondary to staying alive. After
