The idea was to entertain. But what I couldn't do was to come up with a "womanize" situation. You can find about the roles of women in our movies; such as, how they interact with men, and what they do if they are alone. Plus, there are some movies that feature women who are independent in their careers. In 2002, Disney released a live-action remake of the animated movie Beauty and the Beast. With only one male and one female, the cast is predominantly female, and the story is a traditional love story. Watch Beauty and the Beast for Free Online. Desi Boyz movie download full hd 1080p I am a girl and, as a girl, I feel this way. I feel the way women in movies feel; scared and alone. Women in movies are either abject victims or hard nuts. They are never strong characters. And, as a girl, I want to see strong women; to see them as they are. And I want to see this in movies, too. I want to see more movies with strong women. I, like most girls, am a big fan of Disney cartoons. In the 1950s, Disney turned its animators loose to create their first feature length film, Snow White and the Seven Dwarfs. From the movie, came a hit song, Someday my Prince Will come to me He's a real man of snow From fairytale to teeny-bopper. So, let's take the lead from Disney. We'll see how movies with beautiful, strong women can be made in Hollywood, and how women can be portrayed as strong, intelligent characters. Will these stories help Hollywood make more movies like they did in the 1950s and 1960s? I don't know. But I am optimistic that we can make some movies better for everyone.
