There are a lot of people who can't access to files if it's not free and not open format. Somebody can try to hack these files, so you can not access to your files anymore. 1) " " For example i want to extract texture from product called "Full Version" or "". For example i want to extract texture from product called "Full Version" or "". 2) Why you not generate automatically tryit link for this product, this product can be viewed by other persons who do not have bought license? For example i bought license for the product called "Full Version" and it was a tryit link to view other person who do not have buyed license. 3) But you can not edit this product texture so this product is not editable. For example i bought product called "Full Version" and this product was only for viewing and not editable. 4) If imvu product name is "". Why you release the name as ""? It's not free name and the name will be used for other product. 1) " " For example i want to extract texture from product called "
