This is a unique file. I can not find this. Please help me with this. THANKS! It is a working cheat engine.. Search: "fsx flytampa Vienna V2 key code generator",.Q: Incorrect syntax near the keyword 'With'. SQL Server I have the following SQL: INSERT INTO dbo.TransactionRequest (TransType, TransName, TransCategory, TransDate, TransAmount, TransStatus) VALUES ('Withdrawal','Test','Second Division','07/01/2018','1','4'), ('Withdrawal','Test','Second Division','08/01/2018','1','5') This is showing me the following error: Msg 156, Level 15, State 1, Line 5 Incorrect syntax near the keyword 'With'. It seems to be the last line, 'Withdrawal','Test','Second Division','08/01/2018','1','5' that causes the error. I'm not sure what is wrong? A: A column name cannot start with a number. You should insert the column names in your table as varchar not the number. Also, you should not have spaces in your column names. INSERT INTO dbo.TransactionRequest (TransType, TransName, TransCategory, TransDate, TransAmount, TransStatus) VALUES ('Withdrawal','Test','Second Division','07/01/2018','1','4'), ('Withdrawal','Test','Second Division','08/01/2018','1','5') 1. Field of the Invention The invention relates to a locking unit, and more particularly to a locking unit for use with a slide-type ski shoe. 2. Description of the Prior Art Conventionally, such a slide-type ski shoe as shown in FIG. 5 is well known as disclosed in Japanese Utility Model Application No. 82 (1988)-117860. The ski shoe is intended to provide comfortable foot support when the shoe is worn, and is provided with a tension device to adjustably tighten the binding straps for restricting movement of the toe and heel portions of the shoe. However, this conventional structure does not provide a convenient and effective operation for adjusting the tension of the toe and heel portions of the shoe when tightening the binding straps. In addition, the toe and
